Manheim Authority will run operations

BY ROCHELLE A. SHENK Correspondent.

Manheim Borough Authority voted to self-operate its water and wastewater treatment systems on June 16, and it expects to reduce costs and increase revenues.

The authority serves about 2,300 homes and busiand parts of Penn and Rapho townships.

Dave Fenicle, authority administrator/operations manager, said the authority had been contracting services from Miller Environmental Inc., Reading, for the past 12 years. The contract with the firm expires at the end of the
